Validation Overview

Validation Overview

- Validation is the process of exchanging volunteer service tier information between ISPs and SamKnows
 1. SamKnows will send a spreadsheet to ISPs reflecting volunteer service tier information as listed in SamKnows records
 2. ISPs will receive this spreadsheet, confirm all information on the spreadsheet, and return to SamKnows
 3. SamKnows will then take this validated spreadsheet and perform updates accordingly
- Two Mandatory Cycles
- Changes / Updates communicated early on
